

# BR08D

## Crossarm Brackets

PROJECT:

TYPE:

### Features

The BR08D Series crossarms feature a strong yet lightweight aluminum design for ease of installation. The series can accommodate a wide variety of fixtures. It is designed to be used on a pole with a min. 4" OD shaft.

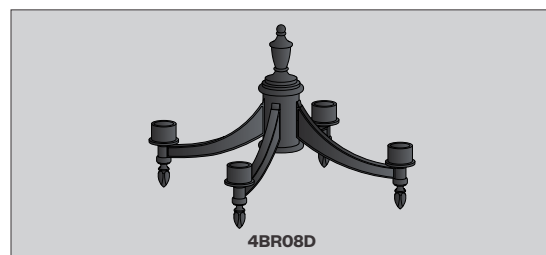

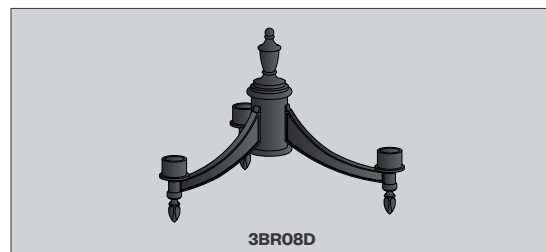

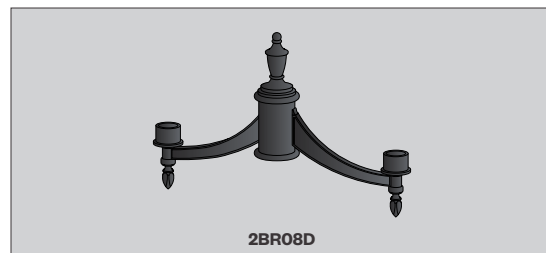

### Product Overview

Type: Crossarm Bracket

EPA: 2BR08D: 0.95

3BR08D: 1.03

4BR08D: 1.20

### Fixture Summary

#### Construction:

Crossarms are shipped as a one piece unit as shown.  
Crossarms are constructed from ASTM 319 aluminum.  
Exterior hardware is stainless steel and tamper resistant.

#### Installation:

Crossarms will slip fit over a 3" OD post top tenon and attach with two rows of 5/16" dia. stainless steel set screws. Crossarms are equipped with 3" OD tenons for luminaire mounting.

The complimentary Wall Bracket is constructed of corrosion resistant cast aluminum (A319 Alloy). It has a nominal 3" OD tenon for luminaire mounting, and four holes in the back plate for mounting to the wall. **(Wall mounting hardware is not included, due to the wide variety of backing materials. Customer should determine the appropriate anchoring hardware based on the wall material).**

#### Finish:

The bracket will be finished with a premium quality thermoset polyester powdercoat for a durable finish.
