

Passo RT

12" Louvered LED Steplight

PROJECT:

TYPE:

Features

The Passo family of luminaires includes high quality, architecturally relevant fixtures suitable for use in both outdoor or indoor applications. All members of the Passo family feature an independently sealed optical chamber and fully potted driver. These features are especially beneficial in exterior applications as they help compensate for the challenges in getting a good seal between a pre-installed back box and the faceplate, as well as those challenges in fully sealing the conduit system. Each luminaire is available in a choice of three output levels to help tailor the desired illuminance to the project and a standard 0-10V dimmable driver allows even further flexibility. A new option for flush mount faceplate has been added.

Product Overview

Type:	Stair & Pathway Lighting
Wattage:	up to 9W
Lumen Output:	up to 138 lm
Color Temp:	2700K, 3000K, 4000K, Amber
Dimming:	0-10V

Certifications

5 year limited warranty
AMERLUX LED

POWDER COATED
TOUGH

Fixture Summary

Application:

Design for new construction in brick, poured concrete, and hollow walls.

Construction:

- Electrical grade PVC housing
- Internal optical chamber
- Cast aluminum faceplate
- 1/8" tempered frosted glass lens

Driver:

- Drive current (175, 350 or 700mA)
- 2.5kV surge protection
- Fully potted
- Input voltage 120V-277V auto-sensing
- 0-10V dimmable down to 10%

Optics:

Individually sealed optical chamber with neoprene gasket insures LEDs are secure independent of the installation of the back box.

Finish:

Premium quality thermoset polyester powdercoat faceplate for a durable finish.
Wildlife Lighting finishes available (*for use with Amber option only*).

ETL listed, suitable for wet locations.

Ordering Information - Back Box

Back Box¹ must be ordered for a complete unit, ordered separately. Choose original surface mount box or new flush mount trim kit (recessed).

1

1	Model
	RTBX-12 (surface mount)
	RTBX-12-FTX ² (flush mount)

Notes: 1. Back Box can be shipped ahead of the steplight, upon request.

2. Flush Mount Trim - Stainless steel trim for use with poured concrete and other surfaces to allow the front of the faceplate to sit flush with the finished surface. The trim forms a clean edge to define the boundary between the fixture and the wall material. Once installed, it can be painted to match the finished surface or left as unfinished stainless steel.

Ordering Information - Optional Adaptor Plate (for retrofit application using an existing wall box or cavity, see pg 4 for details)
