

PROJECT: TYPE:

#### **Features**

ActiveCLEAN's™ high-intensity, antimicrobial wavelengths of 405 nanometers protect your business with the most beautiful, comfortable, non-glare illumination. Utilizing Vyv's signature UV-free antimicrobial technology, our spec-grade (Linea or Gruv) family of luminaries provides continuous surface cleaning by creating spaces that are inhospitable for bacteria, fungi, yeast, mold, mildew and viruses to live, on any surface—and in any application—the light touches.

### **Product Overview**

Type: Cable Suspended, Wall or Surface Mounted Linear, Direct

Wattage: 3W-16W/ft
Color Temp: 3000K, 4000K

**CRI**: 85 typ.

Dimming (wired): 0-10V, 1% dimming (standard)

Lutron LDE1 Hi-lume® 1% Dim Soft-On/Fade-to-Black

DALI dimming, 1% dim

#### **Certifications**

## **Fixture Summary**

#### **Performance Data**

Wattage per Foot	Delivered Lumens	LPW	Color Temp	CRI	
16	2615	41.5	4000K	85	

Data is based on 4' fixture, 4000K, 85CRI IES files available on website.

# Electrical Data

		4'		8'		
Wattage per Foot	Voltage	System Watts	Amps	System Watts	Amps	
16	120V	62	0.52	124	1.0	
	277V	61.1	0.22	122.2	0.44	
9	120V	34.1	0.29	68.3	0.57	
9	277V	34.2	0.13	67.4	0.25	

Electronic multi-volt (120-277VAC), constant current LED driver.

#### Runs

Individual Runs: 2' - 8' (whole foot standard).

Continuous Runs: Available (whole foot standard).

Custom: Made to measure lengths available (nearest 1/8" of field dimensions).

Requires approval drawings. Added cost & lead time.

TYPE:

Not available with IND (individual) configuration

Lengths less than 4' may have restrictions based upon wattage, lengths, drivers or other options.

# Linear Direct with Vyv Antimicrobial Light

# PROJECT: TYPE:

## **Specifications**

#### Application

Commercial, Education and Healthcare ambient lighting that can be customized with made to measure lengths.

Active CLEAN<sup>TM</sup> fixtures may be sold in all areas of the United States. Certain states/countries require additional state approvals which are currently in process. For the following, please contact Amerlux for all projects to confirm exact timing for approval: Colorado, Indiana, Hawaii, New Mexico, Oklahoma, Wyoming, Washington DC and Canada. These restrictions are subject to change at any time and will be updated periodically as additional approvals are completed.

#### Construction

One piece extruded aluminum housing. Die-cast End Plates match fixture body finish. Die-formed, cold-rolled steel internal components are protected against rust and corrosion.

#### Optical

All lenses are snap-in, extruded acrylic, with a maximum length of 8'. Fixtures shipped with lenses installed. Amerlus's proprietary acrylic lens provides excellent transmission while effectively concealing source image.

 $\ensuremath{\text{\textbf{PL}}}$  - Performance Lens provides high efficiency with greater lens surface brightness.

#### LED

Internal LED boards powered by Vyv's patented single-diode technology meets international standards for continuous and unrestricted use around people. Vyv stops the growth of and kills\* viruses, bacteria, fungi, yeast, mold and mildrew with visible light.

\*Testing on a non-enveloped virus (MS2 bacteriophage) showed a 99.985% reduction in controlled laboratory testing in 6 hours on hard surfaces. MRSA and E. coli showed 90%+ reduction in controlled laboratory testing in 24 hours on hard surfaces. Results may vary depending on the amount of light that is reaching the surfaces in the space where the product is installed and the length of time of exposure. Use of Vyv antimicrobial light is not intended to replace manual cleaning

### Color Temperature Options: 3000K & 4000K

**Dual Mode (DM\_)** is a 2-circuit option that allows for switching between white Antimicrobial+Light mode and Enhanced Antimicrobial mode which provides maximum enhanced antimicrobial timpact through 405nm (*violet*) light. Switching can be controlled via switch, sensor or control system (see wiring diagrams) CRI: 85 typical; R9: 10 typical

4-step binning

Life: 36,000 hr., >70% of initial lumens (L70)

**Note:** On certain fixture lengths, there may be noticeable gaps of board missing when switching to the Enhanced Antimicrobial (405nm only, "violet" light) circuit on the dual mode boards. This is the normal and intended application.

**How to use:** To achieve the recommended amount of antimicrobial protection, it is recommended that a photometric layout is conducted on your space. The light level coming from the ActiveClean fixtures should be a minimum of 500 Lux (46.5 FC). Any indirect light from an ActiveClean fixture or ambient light from nearby fixtures should not be used in the 500 Lux (46.5 FC) calculation. All ActiveClean fixtures should be used in conjunction with standard cleaning practices.

#### Electrical

Wiring: Individual and "Beginning of Run" (BOR) fixtures are prewired with power cord. All configurations have quick connect power harnesses for row connections. Wattage: 3W-16W/ft. (3W & 4W have a minimum length of 4'). For other wattages consult factory.

Emergency circuit via remote inverter or auxiliary emergency power supply (by others).

This product complies with IEEE C62.41 for surge endurance up to 2.5KV. Amerlux® recommends using additional surge protection with this unit (supplied by others), surge damage is not covered under warranty.

**EMC-PF** - Emergency circuit requires power feed to be located in last fixture section for continuous runs. For other locations consult factory. Not available for individual (*IND*) configuration.

**PF** - Extra power feed for additional circuiting. Not available for individual (*IND*) configuration.

#### Finish

**AW** - *Active*CLEAN $^{\text{TM}}$  white powder coat paint with anti-microbial coating. Baked on finish for maximum durability and color stability.

#### Configurations/Lengths

**IND** - Individuals are stand alone fixtures made of single lengths of 2' to 8' (in 1' increments). They are supplied with matching painted End Caps and the required mounting hardware. Lengths less than 4' may have restrictions based upon wattage, lengths, drivers or other options.

 $\label{eq:continuous} \textbf{CON} - \textbf{Continuous} \textbf{runs} \textbf{ are longer than 8', specified to the nearest whole foot.} \\ \textbf{Continuous} \textbf{ runs} \textbf{ less than 16'} \textbf{ are made of 2 lengths.} \textbf{ Continuous} \textbf{ runs} \textbf{ longer than 16'} \textbf{ start with a 8'} \textbf{ Beginning of Row} \textbf{ (BoR)} \textbf{ wired with a power feed and fitted with an End Cap. The majority of the runs are made up of 8' Middle of Run \textbf{ (MoR)} \textbf{ lengths.} \\ \textbf{End of Run} \textbf{ (EoR)} \textbf{ units} \textbf{ are made up of 2'} \textbf{ to 8'} \textbf{ units} \textbf{ to the nearest whole foot or a combination of a last 4' MoR and a 5', 6' or 7' \textbf{ EoR.} \textbf{ Runs} \textbf{ longer than 60'} \textbf{ may require a second power feed. Factory installed pins and splines simplify fixture alignment. Lengths are quickly joined with "catch and latch" mechanisms or screws and sturdy brackets. Quick connectors simplify field wiring.}$ 

**CUS** - Custom made to measure runs are made to nearest 1/8" of customer supplied field measurements. They can be a single custom length or runs configured as described above only EoR's are 2' to 8' cut to the nearest 1/8" exact length or a combination of a last 4' MoR with an EoR cut to exact length to the nearest 1/8".

#### Mounting

The Linea 2.5 Direct is intended to be pendant, wall, or surface mounted in continuous rows

**LIN2.5D-Vyv...ASW10** - Direct pendant installed in center of ceiling tile or gypsum board ceiling, (*standard*) i.e. ASW10. Or if canopy is installed on a grid Tee runner add, **T** i.e. ASW10T

Cable Suspension: Cable is stranded stainless steel wire. All fittings are protected against rust and corrosion. Canopies are  $5^{\prime\prime}$  x 1/4" die formed painted steel. Adjustment mechanism allows for infinite height adjustment. Amerlux recommends the required feed and non-feed suspensions based upon length and electrical options. Options include: color of canopy and power cord (black or white), length 10' or 20', and mounting condition, in center of ceiling tile and in gypsum board ceiling (standard) i.e. ASW10. Or if canopy is installed on a grid Tee runner add, T i.e. ASW10T

**LIN2.5D-Vyv....WM** - Direct Wall Mount using steel cleat bracket attached to fixture housing and wall bracket with set screws. Two bracket assemblies are used for each length under 8'. A third center bracket may be recommended. J box required at feed locations..

**LIN2.5D-Vyv....SM** - Direct Surface Mounted - Housing needs to be attached to solid structure above. Mounting holes are pre-drilled at factory. Some fixture disassembly and reassembly required. Mounting hardware by others.

#### Options

**EMB** - Emergency battery pack - 10W output power, 90 min of illumination time, up to 1300 lm of initial light output. Illuminated test-switch/charging indicator light is provided. Wattage consumption by EM: 2.5W/ft (4ft fixture), 1.66W/ft (6ft fixture), 1.25W/ft (8ft fixture). Request can be made to light up 4ft section on 8ft unit.

#### Certifications

Approved to UL standards for damp locations as tested by CSA Intended for indoor use only

#### Warrant

Amerlux's 3 year limited warranty. Please consult Amerlux website for details.
