

# Carisma 3"

## Linear Direct/Indirect LED

### Features

Carisma Pendant is part of a family of architectural linear luminaires that offer excellent performance, quality, visuals and value. A sleek edge-to-edge lens design results in an elegant aesthetic with clean lines. Carisma's patent pending design includes an integrated optical system that minimizes optical losses, allowing for industry-leading efficacy that meets the stringent requirements for DLC Listing (DLC Listing pending). A tailored end cap design and Amerlux's trusted catch-and-latch mechanism prevents all light leakage. The Carisma Pendant offers luminaires with 2" and 3" wide apertures, delivering seamless lighting as discrete individual fixtures, continuous rows or patterns. Carisma can be specified to the nearest 1/8" and is available in pendant, surface, wall and recessed mounting options, providing designers with the versatility to light up a space with their Carisma.

### Product Overview

- Type: Direct/Indirect distribution with Pendant or Wall Mounting  
Performance lens down/Batwing lens up
- Wattage: 5W/ft, 10W/ft (or specify both direct & indirect wattage each between 3W/ft and 10W/ft)
- Color Temp: 2700K\*, 3000K, 3500K, 4000K (\* 90+ CRI only)
- CRI: 80+ or 90+
- Dimming (wired): 0-10V, 1% dimming (standard)  
Lutron LDE1 Hi-lume® 1% Soft-On/Fade-to-Black  
DALI dimming, 1% dim
- Dimming (wireless): Enlighted Sensor  
Lutron Athena (integral wireless RF node)

<b>7</b> Finish HW - high reflectance matte white BT - black texture ST - silver texture For other RAL color, consult factory												

1 - Lengths less than 4' may have restrictions based upon wattage, lengths, drivers or other options.  
2 - Not available with IND (individual) configuration.

# Carisma 3" Direct/Indirect

Linear Direct/Indirect LED

## PROJECT:

## TYPE:

### Specifications

#### Construction

Extruded aluminum housing and reflector. Die-cast end caps match fixture body finish.

**Weight:** 3.5 lbs/ft (may vary based on configurations and accessories)

#### Optical

##### Direct:

All Direct lenses are snap-in, extruded acrylic, with a maximum length of 8'. Amerlux's proprietary acrylic lens provides excellent transmission while effectively concealing source image.

**PL** - Performance lens provides high efficiency with controlled lens surface brightness.

##### Indirect:

Extruded acrylic lens with a maximum length of 4'.

**BAT** - Batwing upright lens spreads light directly above fixture.

A minimum of 18" distance between ceiling plane and top of fixture is suggested.

#### LED

Our LED binning is within 3 MacAdam ellipse. Boards are configured for maximum flexibility resulting in even illumination no matter what the fixture layout. LED boards are easily replaced in the field with just a Phillips screw driver.

**Color Temperature Options:** 2700K\*, 3000K, 3500K, 4000K

**CRI:** 80+, 90+

**R9:** 16 @ CRI 83; **R9:** >50 @ CRI 92

**Life:** 50,000+ hr., > 70% of initial lumens (L70)

\* Available in 90+ CRI only

#### Electrical

**Wiring:** Individual and "Beginning of Run" (BOR) fixtures are prewired with power cord. All configurations have quick connect power harnesses for row connections.

1 - Single Circuit, direct & indirect are on the same circuit

2 - Dual Circuits, direct & indirect controlled independently

**Standard Wattage:** 5W/ft, 10W/ft.

**Optional Wattages:** 3W/ft, 4W/ft, 6W/ft, 7W/ft, 8W/ft, 9W/ft. (3W & 4W have a minimum length of 4'). For other wattages consult factory.

Emergency circuit via remote inverter or auxiliary emergency power supply (by others).

**This product complies with IEEE C62.41 for surge endurance up to 2.5KV. Amerlux® recommends using additional surge protection with this unit (supplied by others), surge and over voltage damage is not covered under warranty.**

**EMC-PF** - Emergency circuit requires power feed to be located in last fixture section for continuous runs. For other locations consult factory.

Not available for individual (IND) configuration.

**PF** - Extra power feed for additional circuiting. Not available for individual (IND) configuration.

#### Finish

All painted surfaces are premium powder coated baked on for maximum durability and color stability.

**HW** - High reflective matte White

**BT** - Black Texture

**ST** - Silver Texture

For special paint colors supply RAL and/or actual paint chip for factory consultation.

#### Configurations/Lengths

##### Straights:

**IND** - Individual fixtures are made of single standard lengths of 2 ft to 8 ft (in 1' increments). These are stand alone fixtures with matching End Caps, supplied with the mounting hardware. Lengths less than 4' may have restrictions based upon wattage, lengths, drivers or other options.

**CON** - Continuous runs, > 8' specified to nearest whole foot length in 1' increments. Runs made from standard lengths have End Caps at the beginning and end of run. Runs > 60' may require second power feed. Each housing has factory installed alignment pins. Mating fixtures are easily aligned and joined. Wiring is made fast and positive with molded quick connectors.

**CUS** - Custom made to measure runs are made to nearest 1/8" of customer supplied field measurements or drawings. Custom lengths use the same hardware for hairline joining.

##### Patterns:

**PXX** - Standard Patterns consist of 90° corners with standard lengths (4' to 8' in 1' increments), continuous runs or made to measure lengths. Depending upon complexity of the pattern drawings may be required from the customer. If ordering please give overall lengths.

**A'-B'-PLL** - L Left - (1) 90° Corner 2 segments. Specify overall segments: A' & B'

**A'-B'-PLR** - L Right - (1) 90° Corner 2 segments. Specify overall segments: A' & B'

**A'-B'-PR** - Rectangle - (4) 90° Corners joining 4 segments. Specify overall segments: A' & B'

**A'-B'-C'-PU** - U shape - (2) 90° Corners joining 3 segments. Specify overall segments: A', B', & C'

**A'-B'-C'-PZ** - Z shape - (2) 90° Corners joining 3 segments. Specify overall segments: A', B', & C'

**See page 6 for layouts.**

#### Mounting

The Carisma Direct/Indirect is intended for pendant or wall mounting.

For even lighting on ceiling, Amerlux suggests 18" minimum distance from top of fixture to ceiling when pendant mounted.

**Pendant Mount-ASWxx** - Direct/Indirect pendant mounted in center of ceiling tile or gypsum board ceiling (standard) i.e. ASWxx. Or if canopy is installed on a grid Tee runner add, **T** i.e. ASWxxT.

Cable is stranded stainless steel wire. All fittings are protected against rust and corrosion. Canopies are 5" x 1/4" die formed painted steel. Adjustment mechanism allows for infinite height adjustment. Amerlux recommends the required feed and non-feed suspensions based upon length and electrical options. Options include: color of canopy and power cord (black or white), length 4', 10' or 20', and mounting condition, in center of ceiling tile and in gypsum board ceiling (standard) i.e. ASWxx. Or if canopy is installed on a grid Tee runner add, **T** i.e. ASWxxT

**Wall Mount-WM** - Direct/Indirect wall mounted using steel cleat bracket attached to fixture housing and wall bracket with set screws. Two bracket assemblies are used for each length. A third center bracket may be recommended. J-box required at feed locations.

**Please note: Single Circuit is standard, the direct & indirect are on the same circuit. For Dual Circuits, direct & indirect are controlled independently.**

#### Options

**EMB** - Emergency battery pack - 10W output power, 90 min of illumination time, up to 1300 lm of initial light output. Illuminated test-switch/charging indicator light is provided. Wattage consumption by EM: 2.5W/ft (4ft fixture), 1.25W/ft (8ft fixture). Request can be made to light up 4ft section on 8ft unit.

#### Certifications

Approved to UL standards for damp locations as tested by CSA

Intended for indoor use only

DLC Listing pending

#### Warranty

Amerlux's 5 year limited warranty. Please consult Amerlux website for details.

### OPTIONAL SENSOR/RF NODE:

Amerlux® has partnered with control companies to create building environments that are safer and smarter, than ever before. At the heart of our partnership is intelligent RF nodes and Smart Sensor, the most advanced digital wireless communication and sensors available today. Integrated into Amerlux products.

Minimum run length is 3' for wireless sensor and RF node.

### INDIVIDUAL (MIN 3' LENGTH)

### RUNS

### CARISMA 2" PATTERNS:

#### Standard Patterns

All corners are standard 90°, standard length legs.  
Use standard lengths: 4' min to 8' in 1 foot increments.  
Continuous runs must be the same length in pairs for closed configuration.

**Carisma 2" Lens**  
Mitered Lens
