TYPE:

### **Features**

Carisma® Pendant is part of a family of architectural linear luminaires that offer excellent performance, quality, visuals and value. A sleek edge-to-edge lens design results in an elegant aesthetic with clean lines. Carisma®'s patent pending design includes an integrated optical system that minimizes optical losses, allowing for industry-leading efficacy that meets the stringent requirements for DLC Listing *(DLC Listing pending)*. A tailored end cap design and Amerlux's trusted catch-and-latch mechanism prevents all light leakage.

The Carisma® Pendant offers luminaires with 2" and 3" wide apertures, delivering seamless lighting as discrete individual fixtures, continuous rows or patterns. Carisma® can be specified to the nearest 1/8" and is available in pendant, surface, wall and recessed mounting options, providing designers with the versatility to light up a space with their Carisma®.

### **Product Overview**

## PROJECT:

### TYPE:

### **Specifications**

### Construction

Extruded aluminum housing and reflector. Die-cast end caps match fixture body finish.

Weight: 3.25 lbs/ft (may vary based on configurations and accessories)

### Optical

All lenses are snap-in, extruded acrylic, with a maximum length of 8'. Amerlux's proprietary acrylic lens provide excellent transmission while effectively concealing source image.

**PL** - Performance Lens provides high efficiency with controlled lens surface brightness.

### LED

Our LED binning is within 3 MacAdam ellipse. Boards are configured for maximum flexibility resulting in even illumination no matter the fixture layout. LED boards are easily replaced in the field with just a Phillips screw driver.

Color Temperature Options: 2700K\*, 3000K, 3500K, 4000K CRI: 80+, 90+

R9: 16 @ CRI 83; R9: >50 @ CRI 92

Life: 50,000+ hr., > 70% of initial lumens (L70)

\* Available in 90+ CRI only

### Electrical

Wiring: Individual and "Beginning of Run" (*BOR*) fixtures are prewired with power cord. All configurations have quick connect power harnesses for row connections. Standard Wattage: 5W/ft, 10W/ft.

 $\label{eq:optional Wattages: 3W/ft, 4W/ft, 6W/ft, 7W/ft, 8W/ft, 9W/ft. (3W & 4W have a minimum length of 3'). For other wattages consult factory.$ 

Emergency circuit via remote inverter or auxiliary emergency power supply (by others).

This product complies with IEEE C62.41 for surge endurance up to 2.5KV. Amerlux\* recommends using additional surge protection with this unit (supplied by others), surge and over voltage damage is not covered under warranty.

**EMC-PF** - Emergency circuit requires power feed to be located in last fixture section for continuous runs. For other locations consult factory. Not available for individual *(IND)* configuration.

 ${\rm PF}$  - Extra power feed for additional circuiting. Not available for individual (IND) configuration.

### Finish

All painted surfaces are premium powder coated baked on for maximum durability and color stability.

HW - High reflective matte White

BT - Black Texture

ST - Silver Texture

For special paint colors supply RAL and/or actual paint chip for factory consultation.

### Configurations/Lengths

### <u>Straights:</u>

**IND** - Individual fixtures are made of single standard lengths of 2 ft to 8 ft *(in t' increments)*. These are stand alone fixtures with matching End Caps, supplied with the mounting hardware. Lengths less than 4' may have restrictions based upon wattage, lengths, drivers or other options.

**CON** - Continuous runs, > 8' specified to nearest whole foot length in 1' increments. Runs made from standard lengths have End Caps at the beginning and end of run. Runs > 60' may require second power feed. Each housing has factory installed alignment pins. Mating fixtures are easily aligned and joined. Wiring is made fast and positive with molded quick connectors.

**CUS** - Custom made to measure runs are made to nearest 1/8" of customer supplied field measurements or drawings. Custom lengths use the same hardware for hairline joining.

### Patterns:

**PXX**- Standard Patterns consist of 90° corners with standard lengths (4' to 8' in 1' *increments*), continuous runs or made to measure lengths. Depending upon complexity of the pattern drawings may be required from the customer. If ordering please give overall lengths.

A'-B'-PLL - L Left - (1) 90° Corner (2) segments. Specify overall segments: A' & B' A'-B'-PLR - L Right - (1) 90° Corner (2) segments. Specify overall segments: A' & B' A'-B'-PR - Rectangle - (4) 90° Corners joining (4) segments. Specify overall segments: A' & B'

 $A^{\prime}\text{-}B^{\prime}\text{-}C^{\prime}\text{-}PU$  - U shape - (2) 90° Corners joining (3) segments. Specify overall segments: A', B', & C'

 $A^{\prime}\text{-}B^{\prime}\text{-}C^{\prime}\text{-}PZ$  - Z shape - (2) 90° Corners joining (3) segments. Specify overall segments: A', B', & C'

See page 6 for layouts.

### Mounting

The Carisma® Direct is intended for pendant, surface or wall mounting. **Pendant Mount-ASWxx** - Direct pendant munted in center of ceiling tile or gypsum board ceiling (*standard*) i.e. ASWxx. Or if canopy is installed on a grid Tee runner add, **T** i.e. ASWxxT.

Cable is stranded stainless steel wire. All fittings are protected against rust and corrosion. Canopies are 5" x 1/4" die formed painted steel. Adjustment mechanism allows for infinite height adjustment. Amerlux recommends the required feed and non-feed suspensions based upon length and electrical options. Options include: color of canopy and power cord *(black or white)*, length 4', 10' or 20', and mounting condition, in center of ceiling tile and in gypsum board ceiling *(standard)* i.e. ASWxx. Or if canopy is installed on a grid Tee runner add, **T** i.e. ASWxxT

Wall Mount-WM - Direct wall mounted using steel cleat bracket attached to fixture housing and wall bracket with set screws. Two bracket assemblies are used for each length. A third center bracket may be recommended. J-box required at feed locations.

Surface Mount-SM - Direct surface mounted - housing needs to be attached to solid structure above. Mounting holes are pre-drilled at factory. Some fixture disassembly and reassembly required. Mounting hardware by others.

### Options

**EMB** - Emergency battery pack - 10W output power, 90 min of illumination time, up to 1300 lm of initial light output. Illuminated test-switch/charging indicator light is provided. Wattage consumption by EM: 2.5W/ft (*Aft fixture*), 1.25W/ft (*Aft fixture*). Request can be made to light up 4ft section on 8ft unit.

### Certifications

Approved to UL standards for damp locations as tested by CSA Intended for indoor use only DLC Listing pending

### Warranty

Amerlux's 5 year limited warranty. Please consult Amerlux website for details.

## PROJECT:

### TYPE:

### **Dimming Compatibility**

Amerlux<sup>®</sup> Carisma<sup>®</sup> fixtures are compatible with all major dimming protocols prevalent in the United States. Please see below for general compatibilities and wiring diagrams. Amerlux recommends testing your unique dimming configuration as the exact full configuration (*Dimmer, Fixture Quantity, Voltage, etc.*) may affect dimming performance.

### --- NOTE: INFORMATION BELOW IS FOR WIRED DIMMERS ONLY. FOR WIRELESS DIMMERS, CONSULT FACTORY ---

### 0-10V - DIMMING (Standard)

Integrates into a variety of building management and daylighting controls

### Notes:

- 120V or 277V\*
- Dims down to 1% light output
- Requires interface to turn off power to driver
- Consult Dimming manufacturer for installation instructions - DO NOT SHARE NEUTRALS!

| Compatible [ | Dimmers <sup>+</sup> : |
|--------------|------------------------|
|--------------|------------------------|

| Wall Box          |              |           | Central System                            |
|-------------------|--------------|-----------|---|
| Lutron:           | Wattstopper: | Leviton:  | Lutron Grafixk Eye with GRX-TV1 Interface |
| Diva - DVSTV      | ADF-120277   | Renoir II |   |
| Maestro - MS-Z101 |              |           |   |
| Nova-T - NTSTV-DV |              |           |   |

### LUTRON LDE1 DIMMING

Integrates into Lutron EcoSystem building management

### Notes:

- 120VAC or 277VAC\*
- Dims down to 1% Soft-On/Fade-to-Black
- EcoSystem Control
- Consult Dimming manufacturer for installation instructions - DO NOT SHARE NEUTRALS!

### Compatible Dimmers<sup>+</sup>:

| Lutron ECO System       | Central System                       |
|-------------------------|--------------------------------------|
| Pow Pak Dimming Modules | Lutron EcoSystem compatible controls |
| Energi Savr Node        |                                      |
| Grafik Eye QS/Homeworks |                                      |
| QS Control Unit         |                                      |
| Quantum Hub             |                                      |
| Homeworks QS/My Room    |                                      |

### LDE1 (HILUME-H-ECO) EcoSystem Digital Control Wiring Diagram

### Notes:

\* Driver is 277VAC dimmable with appropriate dimmer (by others). All provided wiring diagrams show 120VAC wiring colors and method. Please refer to 277VAC dimmer installation instructions for 277VAC wiring diagrams.

\* The absence of a dimmer from the lists above does not imply incompatibility. Please consult factory for compatibility inquiries.

## PROJECT:

### TYPE:

### **Dimming Compatibility** (continued)

Amerlux<sup>®</sup> Carisma<sup>®</sup> fixtures are compatible with all major dimming protocols prevalent in the United States. Please see below for general compatibilities and wiring diagrams. Amerlux recommends testing your unique dimming configuration as the exact full configuration (*Dimmer, Fixture Quantity, Voltage, etc.*) may affect dimming performance.

### --- NOTE: INFORMATION BELOW IS FOR WIRED DIMMERS ONLY. FOR WIRELESS DIMMERS, CONSULT FACTORY ---

### DALI - DALI DIMMING 120V-277V

Digital control protocol allows individual fixture control

### Notes:

- 120VAC 277VAC\*
- · Dims down to 1% light output in most cases

# Compatible Dimmers\*: Wall Box Central State Leviton CD250 Controller Dynalite

| Wall DOX                 | Central System |
|--------------------------|----------------|
| Leviton CD250 Controller | Dynalite       |
|                          | Fifth Light    |

### DALI Wiring Diagram

### Emergency Fixture with Built-In Battery Pack

Emergency fixture with built-in battery pack (*EMB*) wiring: Note: *EMB not available on lengths under 4*!.

#### Notes:

\* Driver is 277VAC dimmable with appropriate dimmer (by others). All provided wiring diagrams show 120VAC wiring colors and method. Please refer to 277VAC dimmer installation instructions for 277VAC wiring diagrams.

\* The absence of a dimmer from the lists above does not imply incompatibility. Please consult factory for compatibility inquiries.
