

Producer Track

Linear Track Pendant

PROJECT:

TYPE:

Features

The Producer Track is a linear track pendant with continuous single circuit Contech track sections to provide the flexibility to install track heads anywhere along the fixture length. The Producer track is an ideal choice for aisle or general lighting with the need for accent lighting in supermarkets.

Product Overview

Type: Cable Suspended, Linear Track Pendant

Track: Single circuit Contech, 120V

Certifications

Fixture Summary

Runs

Individual Runs: 2' - 8' (*whole foot standard*).

Continuous Runs: Available (*whole foot standard*).

Specifications

Application

Linear Track Pendant available to incorporate Accent lighting for highlighting display areas.

Construction

One piece extruded aluminum housing. Die-cast End Plates match fixture body finish. Die-formed, cold-rolled steel internal components are protected against rust and corrosion. Dual Wire Way wiring chassis. 1 circuit Contech track. *(Track Heads sold separately)*

Electrical

Wiring: Individual and "Beginning of Run" (BOR) fixtures are prewired with power cord. All configurations have quick connect power harnesses for row connections.

Emergency circuit via remote inverter or auxiliary emergency power supply *(by others)*.

This product complies with IEEE C62.41 for surge endurance up to 2.5KV. Amerlux® recommends using additional surge protection with this unit (supplied by others), surge over voltage damage is not covered under warranty.

PF - power feed

2PF - two power feeds, one for LED section and one for track section

EMB - Emergency battery pack

Finish

All painted surfaces are premium powder coated baked on for maximum durability and color stability.

HW - High reflective matte White

BT - Black Texture

ST - Silver Texture

For special paint colors supply RAL and/or actual paint chip for factory consultation.

Mounting

Intended to be pendant mounted Individual fixtures or in continuous rows.

Cable Suspension: Cable is stranded stainless steel wire. All fittings are protected against rust and corrosion. Canopies are 5" x 1/4" die formed painted steel. Adjustment mechanism allows for infinite height adjustment. Amerlux recommends the required feed and non-feed suspensions based upon length and electrical options.

Certifications

UL listed

Intended for indoor use only

Warranty

Amerlux's 5 year limited warranty. Please consult Amerlux website for details.
